

**Paolo Pedretti**  
together with  
designlabel **Vij5**

*"A chair where function and construction come together  
in a detailed language of form  
and a clear silhouette."*

This chair is the result of a form analysis of a traditional chair. With this project Paolo Pedretti graduated at the Gerrit Rietveld Academy. After his graduation a part of this research has been continued with the Dutch design label Vij5, resulting in the design of Chair #29.
